La palabra de L@S CANDIDAT@S DE EU-VERDES

The persons who form the party of EU-VERDES wish TO RECOVER SAN MIGUEL to return the town hall to the citizens, in order that the basic services work, in order that the cultural offer is more diverse, in order that the economic activity is compatible with the protection of the environment.

We promise to work for:

AN INHABITABLE AND PLANNED VILLAGE, without illegal urbanizations, with a controlled development and with solution of the problems of services and equipments as well in the village as in the urbanizations.

A SUSTAINABLE VILLAGE that stimulates the renewable energy, which saves and re-uses the water, which improves the treatment of the residues. And that takes care and improves the natural spaces, specially the Natural Park of Sierra Escalona, promoting the environmental education.

A VILLAGE WITH PUBLIC SERVICES OF QUALITY for all the persons. With a health center more effective and organized, with an amplified public library, a diverse cultural offer, an ethnological museum. For a suitable protection of our cultural goods. With sufficient infrastructures: heated swimming pool, concert hall, public gymnasium, etc.. For a village without contaminated water.

A VILLAGE WITH ECONOMICAL DEVELOPMENT to the service of the citizens. Facilitating land for the development of industries, promoting the ecological and integrated agriculture, supporting the small traders of the village, development of a tourist offer based on the cultural and natural resources.

A UNITED VILLAGE WITHOUT DISCRIMINATIONS. That bears in mind to all the social sectors: older generations through to the young, children, disabled, immigrants, and attend to the needs of everyone: residencial housing, youth center, sports and multicultural programs, etc..

A SAFER VILLAGE that favors the integration of the citizens, with a Council of Local Security with local participation and the design of specific plans of safety. With the increase of security forces.

A DEMOCRATIC VILLAGE where the citizens participate and are totally informed about the activity of their town hall, where their problems and needs will be attended to rapidly and where the citizens can participate in the decisions that could affect them.
